

# BASSWOOD/AMERICAN LINDEN

(*Tilia americana*)

Paul Cox

## Is basswood right for you?

60-100 ft tall, 25 ft wide

## Key Features:

Jack Sheper

### Flowers

In the late spring, trees are covered with small, white, sweet-smelling blossoms, a boon to pollinators.

Steve Baskauf

### Leaves

Leaves are large and unequally heart-shaped with serrated edges

MDF

### Visitors to Explore

In addition to a plethora of pollinators, basswood attracts all sorts of wildlife (including this nuthatch) with its nuts.
