

Hello, Parents!

We know your children have been working hard this school year and subsequently, so are you. Why not take a load off and let us do the cooking for a night? To coincide with DeWitt Middle School's "Salmon in the Classroom," Mitchell's Fish Market would like to cordially invite you and your child for lunch or dinner on **Wednesday, March 20th**. This would be an awesome opportunity to try salmon and have an appetizer, or dessert, on us (with purchase of an adult entrée)! Bring this paper in and show it to your server.

Salmon is packed with omega-3 fatty acids, vitamin D, protein, and vitamin B12. All are linked to improving brain function, cognition, and neurological health. Please join us for some "brain food" and have a great night out with your family.

Sincerely,

Kelly Hertzner

Area Sales Manager and Proud DeWitt Graduate
